

Machine Specifications

- Working Area = 200mm*150mm*60mm
- Cutting Speed X &Y = 400 mm/min
- Cutting Speed Z = 320 mm/min
- Power Consumption = 1.5 KW/h
- High Speed Spindle up to 9K RPM
- Tool Chuck : Collet Method
- X,Y and Z Drive system : Nema 17
- Compact Size and Portable
- Low Noise Level During Operation and Standby
- Machine Weight = 60Kg
- Mechanical Resolution = 0.0025 mm/Step (Micro-Step Control)
- Powered By : GRBL Firmware
- Equipped with a protection system
- Cuttable Materials : PCBs , Acrylic , Resins and Wood (Metal Not Supported)

PCB CNC
